

Moving Caterpillar Craft

Materials

- Caterpillar outline (below)
- Paper
- Scissors
- Glue stick or glue bottle
- Dowel sticks/chopstick

Instructions

1. On piece of paper, make a ~2" circle, draw a face and add antennae if desired.
2. Print out the outline and color the stripes.
3. Cut stripes on dotted line and poke holes at circle on the outline.
4. Fold the paper on the dark lines, away from you colored stripes
5. Glue side A to side B.
6. Bend the "body" of your craft to give it a curved shape.
7. Glue the face piece to the body on the "X",
8. Insert dowel sticks at the ends of the craft, through the 2 holes
9. Move your new caterpillar around by using the sticks!
