

Tissue Paper Snail Craft

Materials

- Snail outline (below)
- Crayons/markers
- Tissue paper
- Scissors
- Pencil
- Glue/glue stick

Instructions

1. Color in the snail's body and draw the eyes and mouth.
2. Cut out 1-2 inch tissue paper squares.
3. Place a tissue paper square on the eraser end of pencil and twist around end.
4. Dab some glue on the end of the tissue paper.
5. Place the tissue paper piece on the snail shell, glue side down.
6. Repeat until the shell is covered.

Name: _____

Why are snails so slow?

In order to move around, they need to create a layer of slime to slide along. Plus they need to haul around their home in the form of a shell.
